05 "Case Study on Korea's development experience in the context of Science of Delivery" registered on The Global Delivery Initiative Library by the World Bank
07 MDP program received accreditation by NASPAA-The Global Standard in Public Service Education

Message from the President

The KDI School of Public Policy and Management was founded as an affiliated educational institution of the Korea Development Institute, a premier government economic think tank at the forefront of social science research for the past 47 years. Drawing from the resources of the Institute, the KDI School provides exceptional education that combines current academic theories with comprehensive and innovative practical research to support the national vision and other key policy agendas.

KDI School has achieved remarkable growth in the past 21 years. It earned prestige nationally and is, among emerging Asian countries, the leading graduate school in the field of public policy. It has positioned itself as an unrivaled institution that offers the best Master and Ph.D. courses in Development Policy as well as programs for development cooperation with a focus on two areas: fostering world-class leaders equipped with academic as well as practical expertise, and providing systematic research and education especially on the processes of economic development.

We place a major emphasis on enhancing the capabilities of our students to not only effectively diagnose and seek solutions for policy issues in the public sector, but also successfully manage national affairs through a heightened understanding of the rapidly evolving private sector. Moreover, we strive to promote friendly relationships with many emerging countries and become the institution that leads a shared growth in the global stage by sharing successful development experiences of South Korea, a country which has gone from being underdeveloped to nearly advanced.

On behalf of the KDI School, I look forward to welcoming talented and promising individuals who aspire to contribute to national and international development, cooperation, and co-prosperity

CHOI, Jeongpyo
President, KDI School of Public Policy and Management

Message from the Dean

The KDI School of Public Policy and Management opened in March 1998 with the mission of fostering global leaders in the public and private sectors at home and abroad. Since then the KDI School has achieved remarkable growth with our inaugural group of 55 students increasing to over 400 in 2017.

For the past 21 years, over 3,100 Korean students who play active roles in diverse sectors including government, public agencies, finance, media, other enterprises, and international organizations have graduated from KDI School. Over 1,900 of KDI School's international alumni are also working in the front lines of their respective fields, creating a global network spanning 131 countries.

The KDI School, by securing a faculty pool with outstanding policy research records, strives to create a rich and interdisciplinary curriculum which combines state-of-the-art theories and the practices of policy making and implementation. Moreover, KDI School's student body with diverse professional and cultural backgrounds provides an open educational environment to nurture international perspectives and global leadership.

After relocating to Sejong City in 2015, South Korea's administrative capital city, KDI School has been leading the education in the public sector by providing innovative educational environment as well as offering an outstanding level of student support.

The quality of KDI School's educational programs and faculty now rivals other internationally renowned institutions. KDI School's MPP (Master of Public Policy) program was accredited by the Network of Schools in Public Policy, Affairs and Administration (NASPAA) in 2014. This was the first NASPAA accreditation in Korea, and the second outside the USA. Furthermore, the MDP (Master of Development Policy) program was also accredited by NASPAA in 2017. Established for over 21 years, KDI School promises to continue offering the best education for talented students in this field, nurturing the core competencies required by the 4th Industrial Revolution and the ability to solve economic and social issues. KDI School will be both your solid foundation and spring board, enabling you to achieve your dreams of leading a company, your country and making a difference in the world.

Dean, KDI School of Public Policy and Management

PREMIER EDUCATION

A dynamic and vibrant academic curriculum utilizing the intellectual riches of Korea Development Institute (KDI), accumulated from decades of experience in establishing national policies and agendas.

Academic Programs

Overview

KDI School of Public Policy and Management offers Master degree programs and Doctorate degree programs. The school's curricula draws extensively from the valuable resources accrued at KDI, the research institute. KDI School strives to meet the diverse and professional demands of today's a constantly changing society.

Master Degree Programs

KDI School's Master Degree programs are divided into full-time and part-time courses. Full-time students are able to complete their coursework by the end of the first year. They usually spend the second year working on their research component. The minimum time required for graduation is 1 year. Part-time programs use a flexible combination of evening and weekend classes, and students can graduate within two years without interrupting their careers. Both full-time and part-time courses are available for the MDP, MPP and MPM programs. All classes are conducted in English.

Ph.D. Program

KDI School offers Ph.D. programs in Public Policy and Development Policy. The goal of the Ph.D. program is to prepare qualified candidates and help them produce cutting-edge research in their chosen field. The programs also aim to equip students with the skills they need to ascend to leadership positions in the public or private sector.

MPP

MASTER OF PUBLIC POLICY

The Master of Public Policy (MPP) program is designed to provide global perspective and professional expertise in public policy areas. The program is highly regarded both in and outside Korea, particularly among developing countries and government officials. The faculty with outstanding research backgrounds and empirical knowledge offers a leading curriculum that integrates theory and practice. Students are required to take one of the economic policy study areas to cover 39 credits towards their graduation.

The highly diverse student composition provides a unique educational environment. Both domestic and international students from all walks of life, including the government, the media, and NGOs are able to share ideas, knowledge, as well as experiences, and build a dynamic global network.

| Academic Goals |

- Expand policy-makers' capability in policy planning, analysis and implementation
- Foster professionals in the field of economic and social policies

| Program Characteristics |

- Build area-specific policy expertise with economics as its base
- Utilize comprehensive and interdisciplinary research capacity of KDI, the top think tank in Korea

MPP 2010

Marliana Yanti / Indonesia

*Chief Section of Vehicle
Periodical Inspection Facilities, Ministry of Transportation*

I work for the central government whose primary tasks are formulating policy, providing guidance and guidelines related to land transportation for local governments. What I have learnt from KDI School has helped me enrich my understanding and my point of view into a certain problem and understand problem solving not only from technical aspect but also from a social aspect and economical aspect. This became a great asset for me in completing a given task related to formulating policies. KDI School also helped me broaden my knowledge about the outside world.

MPP 1999

Ambachew Mekonnen / Ethiopia

*Minister
Ministry of Urban Development and Housing*

My stay in Korea during the academic year 1999–2000, was a wonderful experience. It changed the way I look at things, and has also inspired me to work harder under the Korean spirit of “We can do it”. I have been talking a lot about the miraculous economic performances of South East Asia particularly that of Korea and how there has been a rapid economic growth coupled with a decline in income inequality. Even during my PHD study in the UK, half of my thesis was about the best experiences that 11 East Asian countries including Korea had at the core of the benchmarking bloc. This shows just how my mind is persistently influenced by the inspiration at the KDI School. Hence, undoubtedly, one of the main contributing factors towards my career evolution as an economist and succeeding politician are the inspirational lessons I received from the KDI School. While our country is striving to follow the Korean model of development, amongst my colleagues, I was also identified as a man that talked a lot about the decencies, diligence, thriftiness, and hierarchical loyalty of Koreans with mutual respect and an overall peaceful mindset.

MDP

MASTER OF DEVELOPMENT POLICY

Based on the KDI's hands-on experience on development policy of 47 years, the Master of Development Policy (MDP) program offers a curriculum where students can examine various issues of socio-economic development in both theoretical and practical frameworks. The program is specifically targeted for international professionals, including government officials, development consultants, and regional specialists who wish to contribute to development policy-making.

The program is also focused on fostering professionals in the field of the official development assistance (ODA). Students must take the required core courses as well as a certain number of courses from Sustainable Development or International Development areas.

| Academic Goals |

- Foster global leaders capable of understanding various issues pertaining to sustainable development and international development cooperation in both theoretical and practical frameworks
- Equip professionals with the capacity to formulate policies based on education in public and private management as well as global leadership.

| Program Characteristics |

- Applicable program that combines development the theories and practices of development
- Sharing the KDI's hands-on experience on development policies of 47 years.
- Diverse student body composed of international professionals including government officials, development consultants, and regional specialists who wish to contribute to development policy-making

MDP 2012

Gulla Jan / Afghanistan

Independent Directorate of Local Governance

The KDI School experiences were exceptional. Upon completing my study at the KDI School of Public Policy and Management, I was able to find an excellent job within one month. This was because of the professional training provided by the KDI School. Before I studied in Korea, I had worked with Ministry of Agriculture in a limited funded program, but currently I am working with the Independent Directorate of Local Governance (IDLG) as governance officer where I am responsible for the oversight of the national program (Stability in Key Areas) funded by USAID.

The experiences of South Korea fit the Afghanistan environment well, as the South Korean situation was similar to Afghanistan. I would like to offer special thanks to the KDI School faculty and staff who provided excellent support during my life at the School.

MDP 2015

Rodrigo Alonso Aguilar Lobo / Costa Rica

Local Government of Curridabat

I am very proud of my master's program in KDI because it was there that I first learned about how to help my own people. It helped me to understand Korean development and how developing countries could learn from Korea's example.

Since the completion of the MDP program in KDI School, I have continued working in the University Of Costa Rica, where I have been conducting research on Education and Development. In 2016, I was elected to work in the Local Government of Curridabat, where I have implemented some projects about how limited resources could be designated to solve problems and improve people's quality of life. In future years I will continue implementing tools to increase the participation of people in addressing public issues and I will continue to improve people's quality of life.

MPM

MASTER OF PUBLIC MANAGEMENT

The MPM seeks to fulfill policy management needs in today's global environment through an integrative education program that covers various facets of management and leadership in both the public and private sectors. The aim of the program is to nurture professionals who can successfully navigate and manage the complexities of global, and private sector environments, make preemptive decisions to deal with the challenges, and have the capacity to put them into action.

| Academic Goals |

- Nurture global leaders capable of successfully navigating and managing the complexities of global, private and public sector environments
- Equip professionals in the public sector with the capacity for policy management based on education in public and private management as well as global leadership

| Program Characteristics |

- The main target is public workforce from government officials and public sector workers
- Interdisciplinary convergence program of public administration, private sector management and global governance

MPM 2015

OGBEY, Patrick / Ghana

Project Assistant

Governance Programme-Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH-Ghana

Coming from a developing country like Ghana, and having pursued my undergraduate studies in Economics, I was eager to seize the opportunity to further my studies through a policy research institution. My pursuit of the Master of Public Management degree program, coupled with a concentration in Strategic Management and courses in Development Policy, has been of immense benefit to my professional and personal development as it afforded me the opportunity to obtain first-hand experience of South Korea's development trajectory. This experience equipped me with public policy formulation and implementation skills and knowledge which have been called upon during the course of my work on Good Financial Governance and Decentralization Reforms in Ghana.

Academic Programs

Concentration

Shape the world Pioneer the future!

Reforming policies and Sharing knowledge
to achieve sustainable development

MPP

| Finance and Macroeconomic Policy |

The concentration on Finance and Macroeconomic Policy aims to help students understand the theory, the practice, and the policy issues in the areas of macroeconomics and finance. Target students include mid-career professionals in finance ministries, central banks, financial supervisory authorities, self-regulatory agencies, and others who aspire to work in such institutions. The rich list of finance courses can also meet the needs of students from the private sector. Upon completion, students are expected to have a full understanding of two key agendas in recent G-20 summits: global imbalance and international financial regulatory system.

Selected Courses Offered

Aid and Development
Banking and Financial Regulation
Capital Markets and Investment
Central Banking: Monetary Policy Strategy
Financial Accounting
Financial Instruments and Markets
Financial Statement Analysis and Valuation
International Financial Management
International Macroeconomic Theory and Policy
Introduction to Financial Analysis
Investment Management
Macroeconomic Policy

| Trade and Industrial Policy |

In this era of globalization, no country can enjoy economic prosperity without engaging in international trade. While domestic industries struggle to adjust themselves in the global market, industrial policy can facilitate the process. This concentration aims to offer theoretical knowledge and practical skills in the field of international trade and industrial policy. Legal and institutional arrangements in the world trade will be analyzed in the context of contemporary issues such as FTA, FDI, international trade negotiations, dispute resolutions, and etc. Target students include mid-career professionals in trade-related ministries and business entities or international organizations, as well as those students who aspire to work in such institutions upon graduation.

Selected Courses Offered

Chaebols in Korea's Development
Competition: Theory and Practice
Current Trade Issues
Game Theory and Strategy
Industrial Policy and International Trade Regulation
Industrialization and Economic Development
Input/Output Analysis
Korean Economic Development
Market Economy and Government
Regulation Reforms and Practices
Regulation: Theory and Practice
Science and Technology Policy
Theory and Policy of International Trade
Trade and Development
Trade and Industrial Policy in the Globalization Era
Trade Law and Policy in Practice
Understanding Free Trade Agreements
Understanding the World Trading System

| Public Finance and Social Policy |

The market is an indispensable mechanism for efficient resource allocation and long-term growth. The workings of the market, however, are often accompanied by extreme poverty, externalities, information asymmetry, and coordination failures, thereby entrapping vulnerable individuals and communities at a lower end of possible equilibria.

To promote efficiency, equity and solidarity is a significant goal of public policy in this light. On the basis of economics and other social science disciplines, this concentration explores ways to tackle these challenges through taxes, government expenditures, and prudent regulations. Target students include mid-career professionals working in the fields of fiscal policy, poverty alleviation, education, healthcare, social insurances, labor protection, and cultural policy.

Selected Courses Offered

Budgeting and Public Finance
Development and Labor Market Policy
Gender and Development
Human Resource Management in Government
Income inequality and public policy
Issues in Labor Policy in the Era of Globalization
Korean Human Development
Labor Market Institutions and Practices
Market Economy and Government
Monitoring and Evaluation for Public Policy
Social Security and Welfare Policy
Tax Policy and Administration
Topics in Development Economics
Welfare Economics and Social Choice
Welfare Service Implementation

| Regional Development and Environment Policy |

Sustainable Development and Green Growth are keywords in the 21st century development discourse. Leaders in the public sector need to understand the dynamic relations among economic development, environmental protection and societal development. With this concentration, students develop the knowledge and skills to 1) draft regional development projects and policies considering environmental consequences, 2) conduct environmental impact assessments, 3) facilitate stakeholder participation and orchestrate environmental dispute resolution, and 4) understand complex policymaking procedures in regional development and environmental management programs. Graduates may find positions as local or regional development planners and decision makers,

environmental analysts in state, national, and international agencies and NGOs, or infrastructure development in the private sector.

Selected Courses Offered

Cost-Benefit Analysis for Policy Decision Making
Economic Analysis of Investment Operations
Environmental Economics and Policy
Impact Evaluation Methods
Land Policy
Population and Development
Public Investment and Economic Growth
Public-Private Partnerships in Infrastructure Development
Real Estate Finance and Public Policy
Regional Development and Public Policy
Seminar on Project Appraisal and Evaluation Cases
Topics in Urban Economics
Urban Economics and Public Policy
Urban Transportation Policy
Urbanization for Economic Development

MDP

| Sustainable Development |

Sustainable Development is a keyword in the 21st century development paradigm. Leaders who want to make a difference in the world of sustainability need to understand the dynamic relations among the three pillars: economic development, environmental protection and social development. The key issues in SD are (1) Economic development issues such as economic growth, productivity, technology, macroeconomics, project evaluation, poverty, and labor (2) Environmental protection issues such as environmental policy, energy, environmental dispute resolution and climate change, (3) Social development issues such as education, population, gender, social capital, healthcare, human settlement, human rights, and social changes.

The target students are professionals and future leaders in public sector, private sector, NGOs, and international organizations.

Selected Courses Offered

Behavioral psychology and Public Policy
Chaebols in Korea's Development

Development and Labor Market Policy
Dispute Resolution and Negotiation
Economic Analysis of Investment Operations
Entrepreneurship and Innovation

Social Security and Welfare Policy
The United Nations and Global Affairs
The United Nations and Sustainable Development
Theory and Practice of Political Economy
Topics in North Korean Economy
Understanding the World Economy

Ph.D. PROGRAM

KDI School offers Ph.D. in Public Policy and Development Policy. The goal of the Ph.D. program is to prepare qualified candidates and help them produce cutting-edge research in their chosen field. The programs also aim to equip students with the skills they need to ascend to leadership positions in the public or private sector.

■ Curriculum Tailored to Your Research Topic

KDI School encourages Ph.D. students to take the initiative in shaping their own course of study, once they complete the required courses during the first 1~2 years.

■ Faculty Involvement

KDI School also encourages Ph.D. students to collaborate with the faculty on research projects. Along with an emphasis on supervised research courses, the KDI School provides an environment where students work closely with professors.

■ Expected Target Students

KDI School selects individuals with demonstrated potential for research. Applicants are also expected to have a research topic firmly in hand.

| Required Courses |

■ Ph.D. in Development Policy(Full-time)

Foundations of Public Policy, Microeconomics I&II, Econometrics I&II, Development Economics I&II

■ Ph.D. in Public Policy(Full-time)

Foundations of Public Policy, Microeconomics I&II, Advanced Macroeconomic Policy, Econometrics I&II

■ Ph.D. in Public Policy(for Domestic Policy Practitioners)

Economics and Policy, Governance and Institutions, Government and Policy, Budgeting: Theories and Practices, Policy Design and Evaluation, Research Methods, Advanced Quantitative Methods, Case Study and Writing Practicum

* List of required courses for Public Policy program is subject to change.

Ph.D. in PP 2012

LAILA, Ume / Pakistan

Assistant Professor

National University of Science & Technology, Islamabad,

The Ph.D. in Public Policy is without a doubt packed with all the essentials one requires to pass the competitive civil service examinations. It helps a student develop a holistic view of the world such that they are aware of all of the known challenges of the time, including those related social, political, economic and environmental issues. The prerequisite of having the vital knowledge of a public servant is met through the degree program. After working for the Department of Ports & Shipping as a program & policy officer, I later became an assistant professor within the Government & Public Policy department at the National University of Science and Technology.

My career in the public sector and academia have been strongly influenced by the high integrity and ethical standards of the KDI School. All of the hard work and sleepless nights at KDI School of Public Policy have paid off.

GLOBAL PERSPECTIVE

KDI School instills a global perspective in students to help them develop a global mindset and the capacity to proactively respond to fluctuations in today's international environment.

International Exchange and Career Development Programs

| GMP and Exchange Program |

The GMP program is a 1+1 study abroad program for Korean mid-level government officials and private sector managers. The first year of study is completed at KDI School while the second year is spent at a partner institution overseas. If a student chooses to be a part of a Master's program at the partner institution, he or she will be eligible to receive dual degrees, one from the KDI School and another from the partner institution. The KDI School also hosts various foreign exchange programs with the aim of expanding students' international perspectives. Exchange programs provide opportunities to not only to earn credits from partner schools, but also chances to receive degrees.

| Mentoring |

The mentoring program is intended to give students practical advice on how to develop a career. Mentors are alumni whose profession fits the student's area of interest. KDI School's alumni network is a repository of professional experience, and the school plays an important role in connecting students with alumni. Current students draw upon the alumni's expertise to help them shape their future career path.

| Special Lectures on Career Development |

Guest speakers are KDI School alumni members or professionals employed in various career fields. Students are offered the opportunity to obtain detailed information about their chosen field and join a network of our alumni.

| Internship Opportunities |

KDI School actively provides information on internship opportunities that best meet students' needs. A large number of research institutes, public organizations, and international organizations contact KDI School to offer internship opportunities to our students. The high volume of internship offers by those institutions is a reflection of the excellent quality of our academic programs and the outstanding achievements of our student body.

| Job/Internship Search Support and Career News |

KDI School provides career information on the school website and the school bulletin boards. To help students search for jobs and internships effectively, online and offline advertisements for openings are regularly updated.

Development Research Center

Building upon the accomplishments of the International Development Exchange Program that supported economic policy-making in developing countries since 1982, the Development Research Center (DRC) was launched to promote a 'knowledge partnership' between Korea and its partner countries in the developing world. Using in-depth research on Korea's own development experience, the DRC aims to facilitate Official Development Assistance (ODA) and the implementation of development policy with concerted efforts from partner countries and international organizations.

What originally began as an incubator of global knowledge sharing, DRC now aims to develop its role as an active agent of change in development policy to help disseminate development know-how, thereby bridging the knowledge gap in the global community.

| Modularization of Korea's Development Experience |

Modularization of Korea's development experience aims to document, analyze and evaluate Korea's development experiences

| International Research Partnership |

International research collaboration on topics of mutual and global concern for practical and flexible knowledge-sharing activities.

- MOOC on SDGs Perspectives on Korea's Economic Development "The Korean Story: Secrets of an Economic Miracle" (to be launched by September 2018) with UN SDSN (Sustainable Development Solutions Network) SDG Academy
- Science of Delivery (SoD) Case Study on Developing Country's Policy Implementation Experiences with Global Delivery Initiative (GDI)
- Delivering global initiative on "Managing for Development Results": Collaborative working with the Development Banks (IDB-ADB-AfDB)

| Korea Knowledge Partnership Program with the World Bank Group |

Joint knowledge sharing program with the World Bank Group for better dissemination of Korea's experience and policy lessons with the global community by conducting a research on didactic policy implementations and delivering capacity building training for public sector

officials from developing countries

- KDI School-World Bank Co-Research Projects on Major Development Policy
- International Conference/Workshops/Seminars on Global Development Issues
- Disseminating Korea's Development Experience Modules through Global Network of World Bank Group

| KDI School-World Bank Joint Impact Evaluation Research |

- Impact Evaluation of the Yunnan Early Childhood Development Project in China (2016~)
- Longer-term Impacts of On-the-job Training on Labor Market Outcomes: Evidence from Dual Training System in the Philippines (Initial project duration: 2015~2017, and follow-up study: on-going)
- Impact Evaluation Workshop with the World Bank Group, 3ie (2012~)

| KDI School-KOICA Joint Impact Evaluation Research (2016~) |

- Impact Evaluation on rural development project in Myanmar and Cambodia

| Korea's Economic Development : Empirical Study Series (2015~) |

- Cliometric study series to focus on Korea's development experiences

Center for International Cooperation and Capacity Building

KDI School's Center for International Cooperation and Capacity Building (CICCB) offers various training programs for government officials from around the world, ranging from working-level officials to high-level decision makers. The CICCB also hosts the Sejong Academy Program to enhance the policy capacity of government officers and national research institute researchers in Korea. By sharing Korea's phenomenal economic development experiences and disseminating its know-how and key lessons, the CICCB strives to enhance the participants' abilities to identify how to better achieve meaningful and sustainable growth in their respective countries, which are committed to prompting positive change and overall development.

| Global Leadership Program |

The objective of the program is to enable participants to enhance their contributions towards reaching G20 development goals set forth at the Seoul G20 Summit in 2010. The program has been designed to drive momentum in implementing action plans at each subsequent G20 Summit.

| Capacity Building Program on Public Policy for Latin America and the Caribbean Countries (LAC) |

Capacity Building Program on Public Policy for Latin America and the Caribbean Countries supports the establishment of the Regional School of Public Policies for Development (ERPPD), which aims to provide quality education in Public Policy and Development Policy for LAC. The CICCB also carries out local training programs for regional policy makers and sends an ad-

visory group to conduct local consultations in member countries.

| Global Development Learning Network (GDLN) |

The Global Development Learning Network (GDLN), a World Bank initiative, is a unique partnership of over 80 affiliates in about 56 countries providing learning solutions for development using an educational platform featuring web-based outlets and videoconferencing facilities. The GDLN Korea Center offers Blended Learning Programs comprised of videoconferencing sessions and face-to-face training on Korea's development experiences to impart educational content on development. As the GDLN Global Secretariat, KDI School acts as the GDLN network's central communication hub that facilitates the building of stronger global partnerships within and among GDLN affiliates.

Shape the world Pioneer the future!

Reforming policies and Sharing knowledge to achieve sustainable development

| International Development Cooperation Capacity Building Programs |

- Short- and long-term fellowship programs in Korea and other developing countries in Asia
- International conferences on capacity building for civil society actors working towards international development cooperation

| International Partnership Programs |

International Partnership Programs aim to enhance the capacity of government officials and policy makers from transitional economies through training programs and workshops that share Korea's development experiences.

| Sejong Academy Program |

The program aims to enhance the policy capacity of government officers and national research institute researchers in Korea by sharing current and pressing issues and impactful knowledge related to 'Economic Policy', Administrative Reform' and 'Global Strategy' for the sustainable development of Korea.

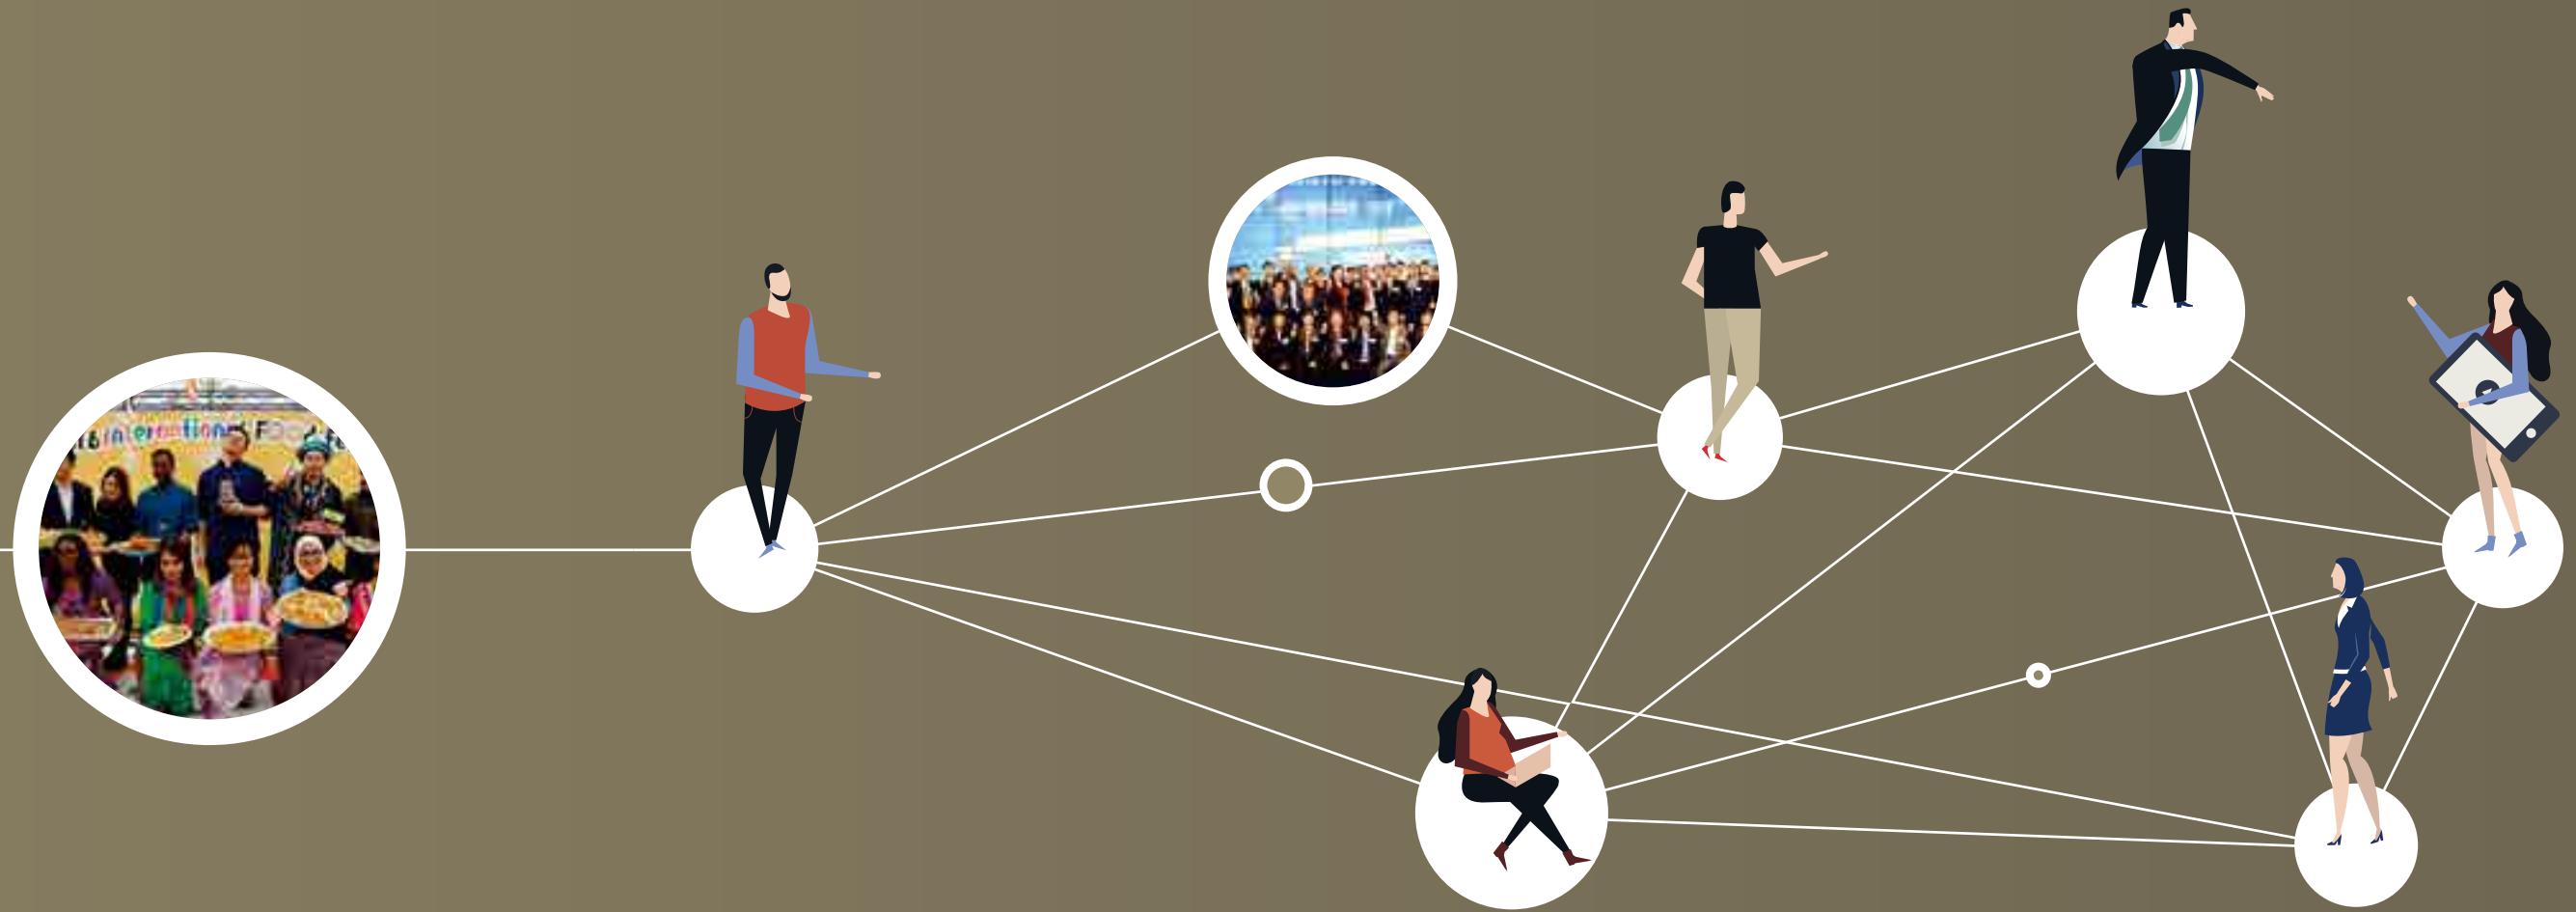

| Capacity Building & Knowledge Sharing Programs |

- Leadership Development Program for the MPA students of APA under the President of Uzbekistan
- Training Program for Indian Administrative Service (IAS) Officers: Korea Study Tour
- Executive Training Program for the Thai Civil Service Officers
- Korea Study Program for the Bangladesh Civil Service Officers
- Enhancing the Capacity of Officials and Employees of the Office of Government and Central Agencies (Vietnam)

WORLDWIDE NETWORK

KDI School has an extensive global network with world class partner institutions. KDI School also has diverse alumni network all over the world. Both platforms are crucial in training the next generation of global leaders.

Worldwide Network

Student & Alumni Profile

KDI School is home to a vast student and alumni network that stretches all over the world. Students come from a variety of backgrounds including over 3,100 Korean alumni members in government ministries, public organizations, private corporations, the finance sector, media corporations, and NGOs. The network is equally diverse for foreign alumni counterparts with current and former students from key government ministry officials in 131 countries. Such an extensive network creates synergy and helps KDI School and its students build a truly diverse support structure that provides mutual support in various fields.

EXTENSIVE SUPPORT

The most valuable asset to a school is none other than its students. Using cutting-edge facilities and equipments for academic/research activities as well as an extensive range of scholarships, KDI School ensures the best possible environment not only for learning but also for everyday life.

Extensive Support

Campus Life & Information

| Campus with consolidated research-educational facility |

The campus is located in Sejong Special Autonomous City, a multifunctional administrative city where central government agencies and national research institutes are concentrated. As the educational arm of the Korea Development Institute, the #1 think-tank in Asia, the KDI School offers premier educational opportunities. The students will have access to the intellectual know-how of KDI, accumulated over the last 47 years, as well as benefit from the studies of world-class researchers by directly communicating with them.

| Ultra-modern facilities |

The campus is an ideal educational environment for full-time students by providing them with a brand new dormitory, as well as student labs and learning facilities optimized for research and education.

| Geographical convenience |

The campus is located within easy access to the rest of South Korea. It takes 2 hours from Seoul, 3 hours from Busan, 2 hours from Gwangju to reach the campus. Osong station is the nearest KTX station to KDI School and BRT (Bus Rapid Transit) runs between Osong Station and KDI School.

| Environment-friendly campus |

It will be an excellent opportunity for students to take a break away from the bustle of a city for a year and solely focus on their studies.

| Library |

The Library provides comprehensive resources specialized in business, economics and policy for research. The library is also affiliated with the KDI library, which enriches the resources available to students. Additionally, students can access information conveniently using the digital library featuring an integrated search function.

| Student Chambers |

Student chambers are open 24 hours a day. Each chamber includes a desk and locker so that students may use their study spaces according to their needs.

| Archives |

The school's archives preserve all school publications, records, visual records, donations, and memorabilia. It encourages students to use these resources on the archives website whenever they need to.

| Computer Lab |

The computer lab is open to students 24 hours a day. It provides high-performance computers, printers, scanners and high-speed internet access.

| Dormitories |

The dormitories are located in the campus, providing students with an environment-friendly home all year round. Each room comes with beds, desks, closets, and toilet (shower rooms). Other facilities including laundry rooms, lounges and kitchens are communal and shared among the residents.

| Other Facilities |

The student lounge is equipped with a TV, a VCR, and computers. Diverse sports facilities are offered on campus (gym, soccer field, basketball court, ping-pong room, tennis court, shower rooms, etc). VOBISCUM is at once a cafe and a vocational rehabilitation business for critically disabled people by Ministry of Health and Welfare and Korea Disabled People's Development Institute.

Shape the world Pioneer the future!

Reforming policies and Sharing knowledge
to achieve sustainable development

Extensive Support

Learning support

Students can avail themselves of KDI School's diverse educational support programs designed to enhance students' capacity for self-directed learning and research.

| K-Developedia (www.kdevelopedia.org) |

- A comprehensive repository of Korea's development experience
- Provides data on Korea's development from more than 2,000 institutions worldwide
- 5 menus including:
 - Development Overview: Overview of Korea's development experience
 - Themes: Comprehensive one-stop references on key development issues of Korea
 - Resources: Collection of research papers and materials on development issues
 - KSP: Information on the Knowledge Sharing Program, a Korean government initiative for sharing Korea's development experience worldwide
 - Statistics: Key development data on Korea from Statistical Korea

| Writing Center |

- Personalized, one-on-one editing service for improving academic writing skills
- Workshops for oft-used writing skills including research writing, citations, academic integrity, and more

| E-learning |

- Virtual Classrooms through eKDIS, KDI School's Learning Management System
- Variety of Massive Open Online Courses on Korea's development experience
- Self-paced e-learning courses for foundation skills including STATA, Economics, Mathematics, Statistics among others

Social Activities

Cultural Events & Site Visits • To promote international students' understanding of Korean culture and society, the KDI School offers diverse cultural events such as a visit to the National Assembly of the Republic of Korea, Seoul City Tour, Korean Folk Village Tour, the 3rd Tunnel Tour, local festivals, etc.

Korea Field Research and Study • During the summer vacation, international students are offered opportunities to visit key historic and cultural sites, as well as Korea's leading industrial companies such as POSCO, Hyundai Heavy Industries, and a local government.

Home Visiting Program • To provide an opportunity for international students to enhance friendship and networking in the Korean community, the KDI School matches international students with Korean host families. Hosts may either choose to invite international students to their homes or arrange a family outing with them.

Club Activities • The purpose of the KDI School clubs is to provide students an opportunity to affiliate with other students through various activities. Student clubs are open to not only club members, but all school members who are interested. Students are encouraged to join a club to enrich their experience at KDI School.

Shape the world Pioneer the future!

Reforming policies and **Sharing knowledge**
to achieve sustainable development

al students and Korean students. The program matches international students and Korean students on a one-to-one basis. Through this exchange, KDI School hopes to allow inter-

national students an opportunity not only to receive guidance and support in their adjustment to the Korean community, but also to make global friends.

Student Forum • To foster a liberal research environment and to maximize the human resources, KDI School has been promoting the student forums. It is a student-driven gathering for academic research. It is also to foster a better student interaction, and to build more network inside the school.

International Food Festival • The International Food Festival is a special occasion to celebrate diversity among students. Most international students prepare distinct native dishes of their home country for all of the KDI School family to enjoy. It provides a platform for the international student groups to present their unique customs and culture.

Sports Day • Sports Day is a time for all students and faculty to step away from the classrooms and onto the athletic field for fellowship, friendship, and community building.
